Thursday, November 5, 2009
**UCSF Symposium on Cancer Prevention**

Preregistration is requested for the UCSF Helen Diller Family Comprehensive Cancer Center's annual symposium, Nov. 5, on "The Prevention of Cancer." All-day event will take place in Byers Auditorium, Genentech Hall on the UCSF/Mission Bay campus, and will cover prevention topics including biomarker development, imaging, chemoprevention and screening trials, tobacco control, diet, physical exercise, cancer-prevention disparities, and the translation of prevention science into applications and policy.

Presenters will be:
Leslie Bernstein, PhD (City of Hope National Medical Center)
Claire Brindis, DrPH (UCSF)
June Chan, ScD (UCSF)
Graham Colditz, MD, DrPH (Washington Univ.)
Matthew Cooperberg, MD, MPH (UCSF)
Steve Cummings, MD, FACP (UCSF)
Peter Gann, MD, ScD (Univ. of Illinois)
Pamela Goodwin, MD, MSc (Univ. of Toronto)
Ellen Gritz, PhD (MD Anderson Cancer Center)
Frank Meyskens, MD, FACP (UC-Irvine)
Anthony Miller, MD (Univ. of Toronto)
Rena Pasick, DrPH (UCSF)
Frank Penedo, PhD (Univ. of Miami)
Martyn Smith, PhD (UC-Berkeley)

For registration and complete program information, visit the symposium website at [http://cancer.ucsf.edu/symposium2009](http://cancer.ucsf.edu/symposium2009).
Monday, November 9, 2009
SBS / IHA Colloquium

Presents the film...“The Iron Wall”
Claudia Chaufan, MD, PhD

“In 1923 Vladimir Jabotinsky, leading intellectual of the Zionist movement and father of the right wing of that movement, wrote: ‘Zionist colonization must either stop, or else proceed regardless of the native population. Which means that it can proceed and develop only under the protection of a power that is independent of the native population - behind an IRON WALL, which the native population cannot breach.’ From that day these words became the official and unspoken policy of the Zionist movement and later the state of Israel. Settlements were used from the beginning to create a Zionist foothold in Palestine….The Iron Wall documentary exposes this phenomenon and follows the timeline, size, population of the settlements, and its impact on the peace process. This film also touches on the latest project to make the settlements a permanent fact on the ground - the wall that Israel is building in the West Bank and its impact on the Palestinian's peoples.”

3:00 – 4:30 pm
UCSF Laurel Heights
Institute for Health & Aging
Gay Becker Room, Rm. 340
Refreshments provided!!

Tuesday, November 10, 2009
IMPROVING HEALTHCARE IN AFRICA: THE NON-PROFIT APPROACH

Featuring: Menghis Bairu, Institute for OneWorld Health; Donna Canali, Doctors Without Borders; Kate Sheahan, Merlin; Stephanie van Dyke, Engeye Health Clinic.

Improving healthcare in Africa is a daunting task. Recent statistics issued by WHO show that Africa holds 11% of the world's population but bears 90% of the burden for neglected tropical diseases, which include malaria and yellow fever. Most of the world's 33 million infected with HIV reside in sub-Saharan Africa. Leaders from four prestigious non-profit organizations that are working on the ground to improve healthcare in Africa for a discussion on what's working and what isn't in medicine, leadership, and sustainability. How is success measured? Are non-profits better suited to provide healthcare than government or private for-profit organizations?

Check-in: 5:30 PM, Program: 6:00 PM, Wine Reception & Photo Exhibit: 7:15 PM
$5 w/ student ID, $7 co-sponsor rate; 312 Sutter Street., San Francisco

This event is co-sponsored by UCSF Pathway to Discovery in Global Health
