Symposium

Friday, March 13, 2009
Want to hear the latest on how partnerships between researchers, community members, and health systems are making a difference for people’s health?

Noon-1:00 pm:
Steven Woolf, one of the nation’s foremost scholars on translational research and the 2009 UCSF Robert Crede Primary Care Lecturer, will a plenary address on the meaning of community engaged translational research and why it matters.

1:15 - 4:00 pm:
A symposium will showcase the outstanding research being done through partnerships between UCSF researchers and community clinicians, community-based organizations, and community-based health delivery systems.

Carr Auditorium
San Francisco General Hospital

Reception to follow the symposium. Please RSVP to e-mail below.
